Reliability
Trust

The new space saving slim series water heaters from Venus designed for modern bathrooms with low ceilings or false ceilings and easy for installation. With a diameter of only 12" it can be easily concealed inside a false ceiling or fixed in the smallest space.

Porcelain Enamel Glass Lined Tank: Manufactured in a modern, automated plant using European Technology. Protects the tank from rust and corrosion.

Slim design with 12" diameter. It can be easily concealed inside a false ceiling or fixed in the smallest space.

Glasslined Incoloy Heating element: Withstands temperatures up to 1000°C. Long lasting, even in case of hard water.

Copper Element : High quality copper heating element for long life and performance (for 10HS Model only).

Triple Safety : Multi-function Safety Valve, Capillary Thermostat & Disc cutout.

8 bar pressure: Suitable for pressure pumps and multi-storey buildings.

Rustproof ABS Lids: With Aesthetic Design and Stylish bottom inspection cover.

Polyurethane Foam (PUF) Insulation: Reduces heat loss and keeps water hot for much longer.

Sacrificial Magnesium Anode: A special device to enhance the corrosion protection of the tank by means of "Cathodic action".
